

# BEWARE OF SKIMMER DEVICES

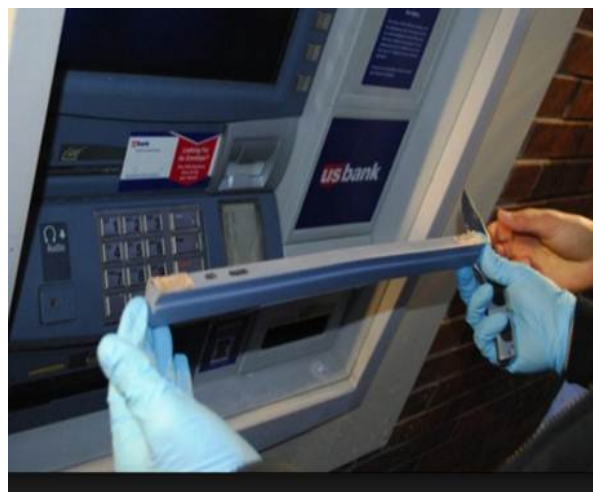

1. Check to see if the card reader moves – most are mounted with double stick tape.
2. Cover your hand over if you are entering your pin number - many ATM readers have a pinhole camera near the keypad.

**Grocery Store Skimmer**

Bank Skimming Device over the Keypad

Pinhole Camera Glued above the Keypad

Different Card Readers on Gas Pumps

1. Always check to make sure that the card readers look the same.
2. Never type in your PIN – Instead, have your debit card purchase processed as a credit card transaction.

REMEMBER - Your PIN number is what they need to withdraw cash at an ATM!!!
