

NOTICE OF PROPOSED 2023 RESURFACING PROGRAM
COUNTY OF MIDDLESEX

This is to provide notification to all permittees or potential road opening permit applicants that any excavation on the following County roads should be completed no later than 45 days from March 7, 2023. No excavation permit shall be issued for openings, cuts, or excavations in the following County roads for a period of five (5) years after the date of such resurfacing.

All public utilities having facilities on the following County roads shall perform such excavation work, subject to the provisions of the Resolution to protect County roads and streets, et. seq., amended through February 2005, as may be necessary to install or to repair sewers, mains, conduits or other utility installations.

In the event any permittee of real property abutting said County road shall fail within said forty-five (45) days to perform such excavation work as may be required to install or repair utility service lines or service connections to the property lines, any and all rights of such permittee or his successors in interest to make openings, cuts or excavations in said County road, shall be forfeited for a period of five (5) years from the date of enactment of said resolution. During said five-year period no excavation permit shall be issued to open, cut, or excavate in said County road unless, in the judgment of the County Engineer and/or Director of Public Works, an emergency as described in this resolution exists which makes it absolutely essential that the excavation permit be issued.
