IMPORTANT INFORMATION FOR RIDERS/INFORMACIÓN IMPORTANTE PARA PASAJEROS

How to Board the Bus

Where they exist, passengers should wait for the bus at official bus stops that are identifiable by the presence of bus stop signs. Where bus stop signs do not exist, riders may stop the bus by flagging it down by waving a hand high in the air and hailing the bus driver. It works to flag down the bus when the bus is sighted well in advance of it approaching you. Wherever possible flag downs should be done at corner locations. The bus driver has discretion to stop where it is safe to stop that is normally at the nearest safe corner to pick up and discharge passengers.

My Bus

You can find out when the next bus will arrive at bus stops all over New Jersey.
• Find the bus stop ID number on the bus stop sign
• Call 973-275-5555 to input the bus stop ID number, or
• Text the bus stop ID number to mybus (69287)
• You will get the time of the bus that is expected to arrive at your stop. If there is no bus stop sign you may call 973-275-5555 or search on line "NJ Transit My Bus" for information on your bus stop ID number and arrival time bus arrival. This provides a convenient, quick response of 24-hour schedule information customized to your location and time.

Fares

Fares on NJ TRANSIT buses and trains serving Middlesex County are based upon a zone system. The fare increases as the distance of the trip increases. The best way to find out the proper fare in advance is to call the bus company or NJ TRANSIT or consult the internet site: <http://www.njtransit.com/ssh.html>.
Exact fare is the general fare policy on all bus routes. Passengers on NJ TRANSIT bus routes are required to have exact fare in coins or \$1.00 bills. Drivers do not carry money and cannot make change. Drivers on Suburban Transit and other private carriers do carry money and will make change.

Cómo abordar el autobús

Donde existen, los pasajeros deben esperar al autobús en las paradas oficiales, reconocidos por la presencia de letreros de parada de autobuses. Donde no existe letrero, los pasajeros pueden señalar al conductor a través de sacudir la mano en alto. Para mejor eficacia y seguridad se sugiere señalar al conductor con la máxima anticipación posible, apenas se distingue el autobús. Donde sea posible se debe señalar el autobús en una esquina. El conductor del autobús tiene la discreción de parar donde esté seguro para embarcar y descargar pasajeros, normalmente en la esquina más cercana.

Utilize "my bus" para el horario de autobús

Usted puede aprender cuando el próximo autobús llega a una parada de autobús en todas partes de Nueva Jersey.
• Localice el número de identificación de la parada de autobús en el letrero de la parada
• Llame al 973-275-5555 y marque el número de identificación de la parada de autobús, o
• mande por texto el número de identificación de la parada de autobús a mybus (69287)
• Recibirá la hora en que el autobús que está previsto llegar a la parada. Si no hay señalización de parada de autobús puede llamar a 973-275-5555 o visite www.njtransit.com/mybus para aprender el número de identificación de su parada. Esto proporciona una respuesta conveniente y rápida de la información de programación de 24 horas personalizada para su ubicación y la hora.

Tarifas

Las tarifas de autobuses y trenes de NJ TRANSIT que prestan servicio al Condado de Middlesex se basa en un sistema de zonas: más largo el viaje, más alto la tarifa. La mejor forma de descubrir la tarifa apropiada por adelantado es llamar a la compañía de autobuses o a NJTRANSIT o consultar al internet: www.njtransit.com/ssh.html.
En general se necesita la tarifa exacta en todas las rutas de autobús. En las rutas de NJ TRANSIT se requiere la tarifa exacta en monedas o billetes de \$1.00. Los conductores no llevan plata y no pueden hacer cambio. Los conductores de Suburban Transit y otras compañías sí llevan plata y sí harán cambio.

Amtrak recommends arriving to the station at least 30 minutes before scheduled departure.
Many of NJ Transit's rail stations are accessible by elevator, ramp, mini high-level platform or portable lift. All accessible stations are shown on the system map with the international symbol of accessibility.
